## **How to Obtain BuyerEase in 7 simple steps**

BuyerEase is useful for any organization having small or large product-range, multi-location buying activities, multiple vendors and multiple buyers. It is best suited for Buying Houses, Exporters, and large retailers (in sourcing) and overseas customers.

BuyerEase can be **EASILY ACQUIRED** in just a few simple steps...

- **STEP 1. Get yourself registered** and our customer service executive shall contact you to help you assist through the process.
- **STEP 2. Acquire knowledge** of BuyerEase modules, features, value additions and costs.
- STEP 3. With the agreement on commercial terms and having the benefits of a pocket friendly cost model, you may start with the release of a Letter of Intent (LOI) along with a nominal token fee.
- You may select people from different departments to **formulate** a **team** to execute the pilot run, i.e., **use the software on trial basis**.
- STEP 5. BuyerEase technologists shall configure the software for trial usage and provide the necessary assistance to the user groups in carrying out the job stepping, using the software, and generating the expected output.
- STEP 6. You review the feedback and shall confirm the order<sup>1</sup>. A project charter shall mutually be drafted describing the deliveries, configuration, and training schedules.
- The **training sessions**, as would have been scheduled in the project charter, shall be executed to the pre-specified user group of the customer by FSL Software Technologies Ltd team.

\* \* \* \* \*

<sup>&</sup>lt;sup>1</sup> In case, you wish to abort the project though most unlikely at this stage, the token money paid shall be adjusted towards the expenses incurred to configure the software and providing assistance for the trial usage.
